The object of this institution is to reform boys and girls committed by the Police Justices for truancy and such conduct as indicates they are beyond the control of parents. It is a public institution, supported by the city. It takes children viciously inclined, and through industrial and school culture, prepares them for lives of usefulness. The Home is in no sense like a prison, but the intent is to make it what its name implies—a "home school" for unfortunate children.

Board of Trade.
